Program: B.A.S.

Department of General Studies

College of Arts and Sciences

Kettler Hall 144 ~ 260-481-6828

The Bachelor of Applied Science was developed at Purdue University Fort Wayne for students who have acquired their Associate of Applied Science (A.A.S.) from an accredited institution. The B.A.S. provides Applied Science graduates with an opportunity to further their education, filling a need for students whose A.A.S. degrees previously have not articulated well into four-year institutions. The B.A.S. degree can be adapted toward several career fields, including general supervision, or entry level administration or management. Developed to provide a broad knowledge of skills needed to manage an organization, the B.A.S. provides students with in-depth knowledge in one of five academic concentration areas (Business Specialty, Leadership and Supervision, Interdisciplinary, Information Systems, Information Technology). While not intended to prepare students for traditional graduate degree programs, the program builds on the foundation of the Associate of Applied Science and meets state and university general education and degree credit hour requirements.

Student Learning Outcomes:

Upon successful completion of this degree, students will have:

- Acquisition of Knowledge: Explain breadth of knowledge across disciplines and depth of knowledge in their chosen discipline.
- Acquisition of Knowledge: Demonstrate ability to know when there is a need for information. Identify, locate, evaluate, and effectively and responsibly use and share that information for the problem at hand.
- Application of Knowledge: Demonstrate the ability to integrate and apply that knowledge, and in so doing, demonstrate the skills necessary for life-long learning.
- Personal and Professional Values: Exhibit the highest levels of personal integrity and professional ethics.
- A Sense of Community: Discuss the knowledge and skills necessary to be productive and responsible citizens and leaders in local, regional, national, and international communities.
